WORLDWIDE TRAINING FACILITIES

The skills you need for mission success; that is the fundamental principle that underlies Zodiac Milpro training courses.

Whether basic or advanced, routine or specialist; entrusting the study, design, and implementation of your training to the Zodiac Milpro Training Team will give your team the skills you need to succeed out on the water; safely use the maximum of your boat's abilities, and prolong its service life. Organizations that invest in Zodiac Milpro training for their boat crews see up to 60% increased readiness rates compared to those that do not.

Your training course will be delivered by one of our technical experts selected from industry, military, coast guard, and special forces with an average of 20 years of operational and technical experience. Every year, Zodiac Milpro instructors deliver thousands of days of training worldwide to government, military and commercial clients ranging from tier 1 special forces units to cruise ship expedition leaders.

Allow our instructors to develop a customized syllabus taking into account your requests and specific constraints. All procedures are designed to work day and night taking into account the worst conditions and emergency situations.

COMMISSIONING

MILITARY | PROFESSIONAL

HOW TO PREPARE YOUR NEW BOAT

Preparing your new boat after delivery at the base to ensure that you are 100% operational when getting on the water.

STANDARD OPERATIONAL TRAINING

MILITARY | PROFESSIONAL

After the commissioning of your new boat, we will train the crew to understand 100% of their new boat, equipment and trailer...

Reducing the time to the couple boat/crew to be fully operational. Providing procedures adapted to your boat.

We will provide a mix between theory and practice to optimize the useful life of the craft within the scope of your own unit's constraint.

MILPRO TRAINING | 04

OPERATIONAL EXPEDITION TRAINING

PROFESSIONAL

OPERATIONAL EXPEDITION TRAINING

Customized standard operational training course in order to qualify your operators aboard cruise /expedition ships.

Dedicated maneuvers and procedures to be able to work safely with your inflatable boat.

PILOTING

MILITARY | PROFESSIONAL

LEVEL 1

SEAMANSHIP / BASIC PILOTING

How to safely pilot your boat including basic breakdown.

LEVEL 2

OPERATIONAL PILOTING

Fast boat driving skills, boarding, beaching, capsizing, towing day and night in rough water.

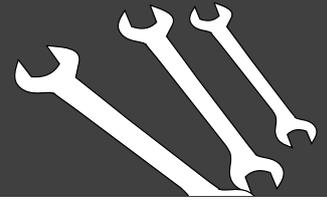

LEVEL 3

TACTICAL PILOTING & TEAM LEADING

Instrument navigations day and night, how to prepare and lead fleet of very fast boats.

MAINTENANCE

MILITARY | PROFESSIONAL

Preventive maintenance to extend the lifetime of your boat and her equipment. Corrective maintenance to stay operational.

Hull, engine, tube, and all specific equipment and systems.

LEVEL 1

Preventive and corrective maintenance that will allow you to maintain your boat with simple tools, material and procedures.

LEVEL 2

Advanced preventive and corrective maintenance should be done in an appropriate workshop with skilled procedures and materials.

AIR DELIVERY SOLUTIONS

MILITARY

You'll be able to Helidrop (without parachute), Helisling, and/or airdrop with a parachute with all procedures from preparation to post drop maintenance during the day as well as night.

Zodiac Milpro Studies, material and training courses to provide you with customized aerial solutions.

Helidrop and Airdrop from very low to very high altitude.

Helisling is a patented solution for boats.

UNDERWATER CACHE

MILITARY

Clandestine commandos infiltration and exfiltration solutions.

Zodiac Milpro™ underwater cache solution is developed to meet the demanding requirements of military unobtrusive operations. Its specific features give you the capacity to hide your boat during the night/day infiltration phase of the operation and to reinflate it after the mission and exfiltration.

Following the Zodiac Milpro™ procedures ensures equipment integrity thus securing the exfiltration phase.

CAPSIZING EMERGENCY SITUATION

MILITARY | PROFESSIONAL

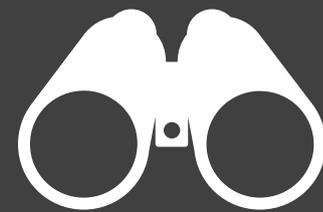

To accomplish the mission considering a nonconforming situation. Train your team on how to avoid capsizing and how to react safely if it happens. You will learn about risk areas.

You will be able to:

- React correctly after capsizing.
- Use safely the righting system of your boat.

SEARCH AND RESCUE

PROFESSIONAL

Rescue operations from a boat whatever the situation.

Specific piloting skills depend on the boat and location (surf, river, shallow water; current, etc...).

Different techniques on how to search and recover victims. How to manage search and rescue operation.

CUSTOM-MADE TRAINING

PROFESSIONAL | MILITARY

We will provide you with audit, research, and consultancy services to improve your capabilities.

Provide you with a team of experts from different specialties in order to set up a new unit or improve your skills.
